

Bullying and Harassment Education

We are moving into the second quarter and are extremely excited about how our students are progressing this school year. Over the course of the next six weeks during our advisory period we will be taking a proactive approach to helping our students deal with issues involving bullying and harassment in our school.

The focus of the lessons will be on defining what bullying and harassment is; how it happens, what it looks like and what are the effects of bullying in our society. We will also be addressing what can and will happen to you if you are involved in bullying, harassment and teasing of others at Pine Middle School. Our goal is to educate our students, give student strategies on how to deal with bullying and harassment and help change a student culture of “do not tell or talk to the adults because it will only make things worse.” We need the support of our parents in this effort. We will begin this school-wide effort on Monday, November 16th.

Please encourage your students to take a stand against bullying and harassment by working with the adults in our building to improve the culture of our school. Together we can change our culture and make our school a safe place for all children and adults. If you have questions concerning this program please contact Mr. Boudreau at 689-2550.
